# Testimonials

*"After three days of amazing speakers from across the world at the Annual International Spirituality and Psychology Conference in Thailand, Nora was our closing speaker. Her uplifting spiritual presence brightened the room with an interactive discussion on the role of intuition in spirituality and psychology."*

**Vladimir Mladjenovic**

Director, Tomorrow People Organization, Belgrade Serbia

*"Nora's presentation was clear, helpful and FUN and related life and science in an attractive way."*

**Dr. Ghanem Al Bustami**

Professor of Development & Education Psychology, College of Arts & Science, Abu Dhabi, UAE

*"The author is well trained, well educated, well practiced, spiritually oriented and motivated to help the reader claim a birthright. She has worked hard to make the material accessible and I believe that anyone who follows Truscello's specific steps will find their desire satisfied to become more aware and confident of one's ability to use the skills to constructive ends, including increased self-acceptance. Empaths especially will benefit from the author's discussion of "intuitive footprints" that enable one to determine if the sudden change of mood springs from within or via an empathic resonance with somebody else."*

**Henry Reed, PhD**

Director of the Edgar Cayce Institute for Intuitive Studies

*Working with Nora was incredible. She helped me hear what my animals were telling me. I thought I was getting clues from them, but always doubted my abilities. Nora confirmed that it IS possible to talk to the animals if we just tune in. I'm excited to continue with her instructions to strengthen my "listening." Thank you, Nora, from the bottom of my heart! (My pets and patients thank you too!)*

**Dr. Judy Morgan, Veterinarian**

Best-selling author, and 2018 Woman of the Year in the Pet Industry
